INTRODUCTION

The Kalonzo Musyoka Foundation is an organization dedicated to the improvement of quality of life for all, alleviation of poverty, provision of healthcare and promotion of justice, peace, cultural values, human rights, democracy and conservation of environment.

Distribution of relief food and certified seeds in Kilome district.

The Foundation aims at developing strategic alliances and partnership while fostering community engagements to not only identify needy areas of assistance but also pool adequate resources for the implementation of various programs.

The Kalonzo Musyoka Foundation is a non-partisan, non-profit making organization funded by partners and well-wishers. It is run by a board of management, which oversees an executive management team charged with the day-to-day activities of the Foundation.

The Foundation accounts are audited annually by a reputable audit firm.

OUR MISSION

To be the premier Foundation providing infrastructure and support needed by the people to grow, expand and realize their full potential through partnerships aimed at contributing towards a better and peaceful world

OUR VISION

A just, healthy, peaceful and democratic society, especially in Africa as envisioned by the Founder Hon. Dr. Stephen Kalonzo Musyoka.

OUR MANDATE

To identify and work in programming areas where the Foundation can provide both leadership and initiatives for the people to eradicate poverty, illiteracy and promote self reliance.

CORE VALUES

- Professionalism
- Integrity
- Justice
- Innovation
- Leadership

has been engaged in conflict resolution in Somalia and Sudan. In deed the Foundation through its founder and patron

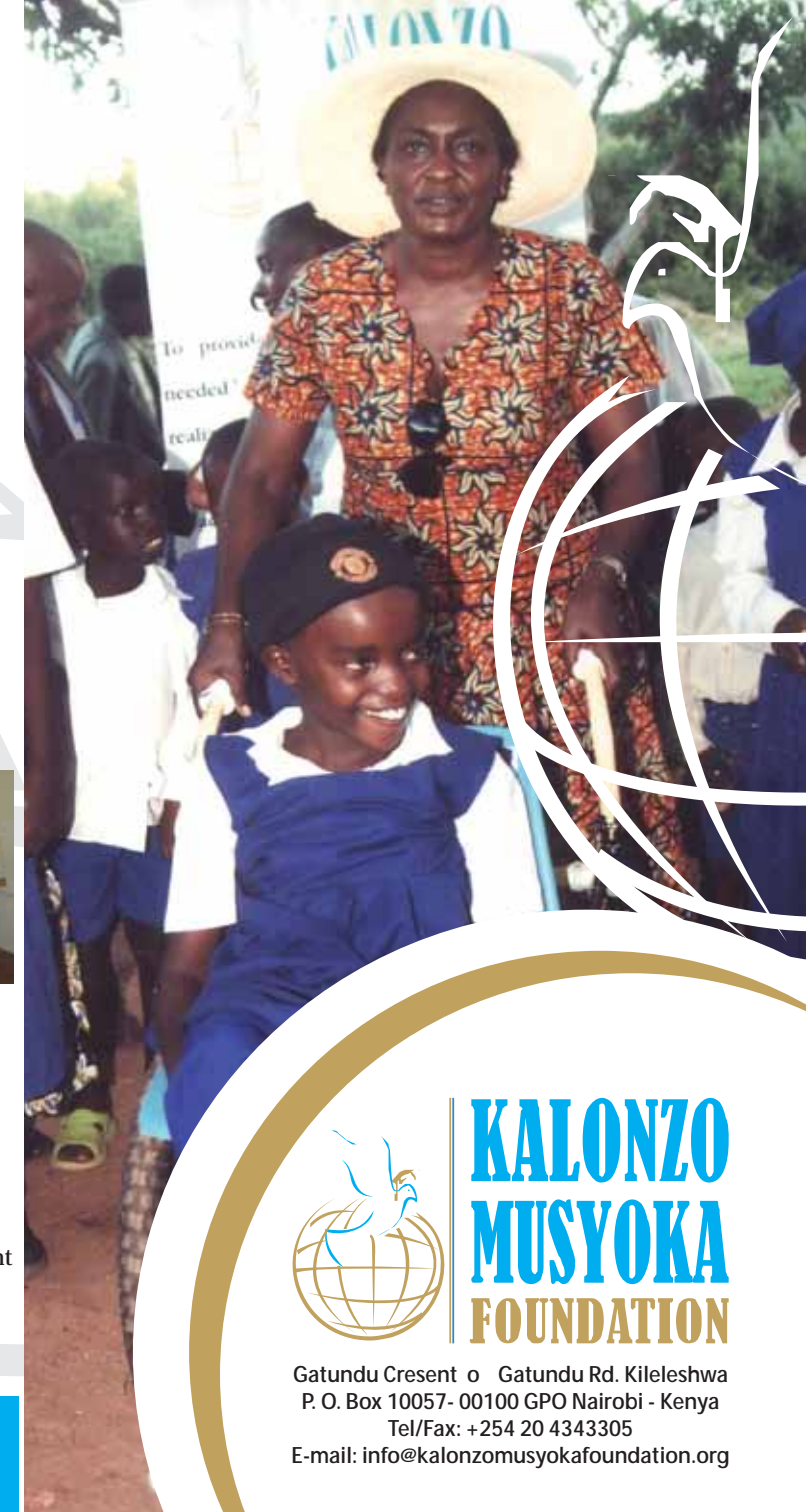

Tseikuru digital village

Hon. Stephen Kalonzo Musyoka spear-headed the Sudan Comprehensive Peace Agreement between South Sudan and Northern Sudan which was signed in Naivasha, Kenya.

ECO-BLOCK PROJECTS

We focus on a simple low-cost block making technology used for building house, schools, clinics, water -tanks and latrines. Known as interlocking stabilized soil block (ISSB) technology, the blocks are made of soil, which is mixed with a small amount of cement and are compressed into blocks in a hand-press machine and kept moist to "cure" these blocks have an interlocking feature on top and bottom and both ends which simplifies construction.
